During your stay with us , you will enjoy the amazing selection of
Hermes Eau d' Orange Verte toiletries

Eau d'Orange Verte

Hermes Eau d'Orange Verte created by Françoise Caron in 1979 and inspired by the smell of undergrowth moist with morning dew, Eau d'orange verte has since asserted itself as an emblem of Hermès, standing out through its distinctive freshness. Conceived as an explosion of citrus notes, orange plays the main part, supported by zest and leaves, lemon, mandarin, mint and blackcurrant bud. The fragrance reveals its complexity in a unique sillage composed of oak moss and patchouli.

The Hermes collection reflects the house of Hermès' art of living. Generous, figurative expressions of simple, sparkling pleasures, each Hermès is an olfactory snapshot.
